Leading the Way in Academic Health Care: Rutgers Biomedical and Health Sciences

With the establishment of Rutgers Biomedical and Health Sciences, Rutgers—already a leading national research university—now stands as one of America’s largest, most comprehensive university-based centers for studying and improving human health and health care.

As we advance medical innovation, provide direct patient care informed by the latest research findings, and educate a full complement of health care professionals, Rutgers is equipped as never before to transform lives.

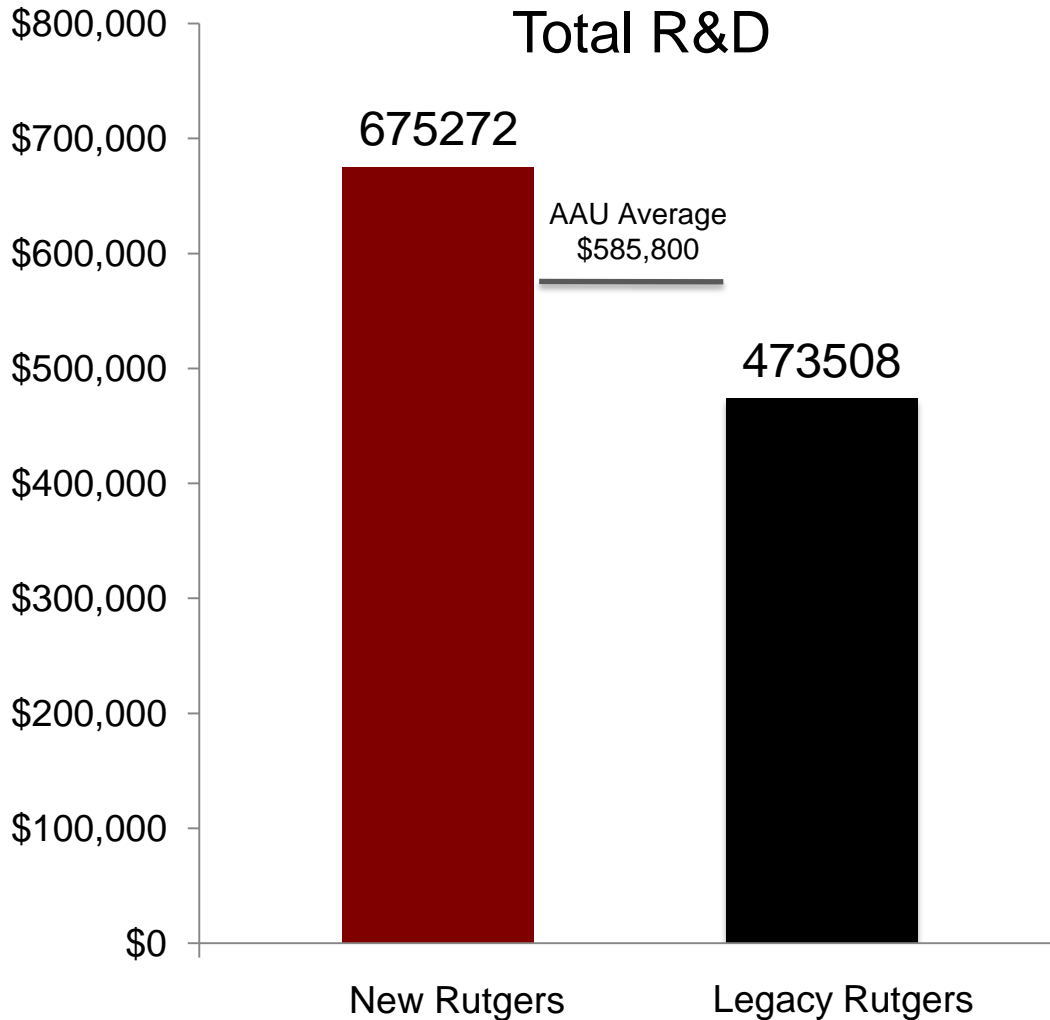

For Rutgers and the region, the advantages of having a highly regarded health care division attached to The State University of New Jersey are considerable as we

- draw more top-flight faculty and students;
- deepen our research collaborations;
- optimize the coordination of health care for residents;
- accelerate economic growth; and
- attract even greater public and private support.

Launch of RBHS Strategic Plan

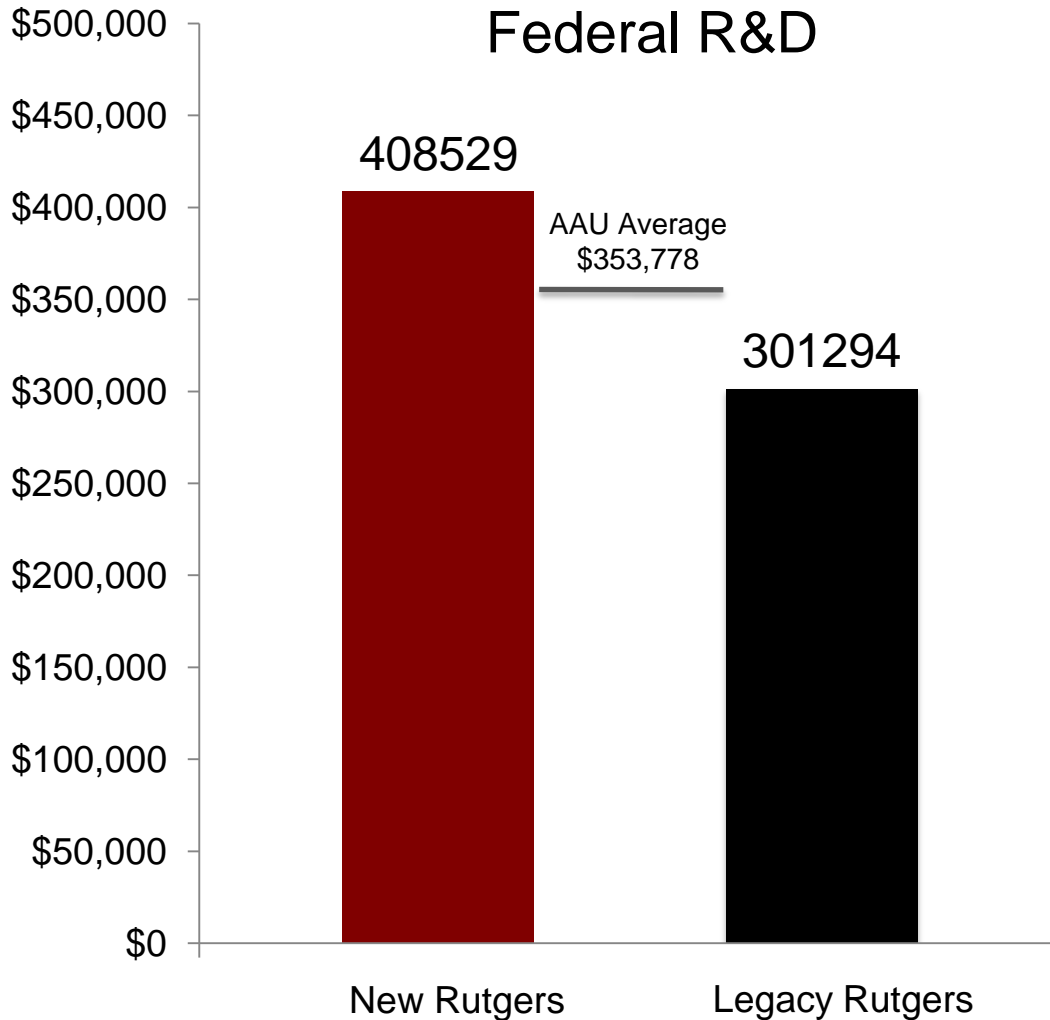

Chancellor Brian Strom announced the launch of the RBHS Strategic Planning Process at two Town Hall Meetings on December 2 in Newark and Piscataway. [Learn more.](#)

"Our universitywide strategy will outline a coherent vision, with clear plans and goals for our future. As we proceed, we need to hear from everyone with a stake in Rutgers' success."

— Robert Barchi, President

- [About Rutgers](#)

Taking Rutgers Forward

Under the leadership of President Robert Barchi, Rutgers has been engaged in a thoughtful, universitywide effort to develop a strategic plan that defines its overall direction and aspirations for the next five years. Every part of the university community has been providing input through [surveys](#), town hall meetings, [advisory groups](#), faculty forums, [departmental discussions](#), and interviews. From this input a [strategic plan framework](#) has been formed, and [13 strategic planning committees](#) have refined each of the components of that framework in order to develop a final plan.

President Barchi will submit for Board of Governors approval early in 2014 a document that expresses a clear vision and strategy for Rutgers' future and reflects the input of faculty, students, staff, alumni, retirees, and governing board members, as well as state and local leaders.

Boards to Review Draft Strategic Plan

President Barchi [announced](#) that he is presenting a draft strategic plan to Rutgers' Board of Governors and Board of Trustees at their December 2013 meetings for review and comment. Feedback from the boards will shape the final document that will come before the Board of Governors for approval early in 2014. Upon that approval, the plan will be posted on this site and distributed to stakeholders in the Rutgers community and across the state.

The Thinkers

Some of the world's best thinkers are members of the National Academy of Sciences. Meet the Rutgers faculty most recently elected to this prestigious body.

RUTGERS

2013 MacArthur Award Winners

Julie Livingston, Professor, Rutgers School of Arts and Sciences, Department of History ■ Livingston, who received her Ph.D. from Emory University in 2001, specializes in African history and in the history of public health. While doing research for her most recent book, *Improvising Medicine: An African Oncology Ward in an Emerging Cancer Epidemic*, she tracked the rapid spread of cancer in Botswana by documenting the daily medical ordeals of patients and caregivers in the country's public oncology ward.

Craig Fennie, Rutgers Alumnus, Ph.D., Physics and Astronomy, 2006; Master's in Physics, 2003 ■ Fennie, who holds degrees from Rutgers Graduate School–New Brunswick and is on the faculty at Cornell, is a scientist drawing from physics and chemistry to discover new materials that could serve as the basis for future electronic devices. He is also developing strategies to design compounds that could lead to greater efficiency for capturing solar energy.

Jeffrey Brenner, M.D., Robert Wood Johnson Medical School, 1995 ■ Brenner, founder and executive director of the Camden Coalition of Healthcare Providers, is an alumnus and a primary care physician who is using a model of cooperative health care delivery to meet the medical and social service needs of the most vulnerable citizens in impoverished communities.

Karen Russell, Rutgers–Camden Master of Fine Arts in Creative Writing Program ■ Russell was a finalist for the 2012 Pulitzer Prize for Fiction for her debut novel, *Swamplandia!* This fall, she is sharing some of her favorite works of fiction in a series of wide-ranging literary discussions as part of the Master of Fine Arts in Creative Writing program at Rutgers Graduate School–Camden.
